

Unstable Foundations (Tutorial)

Rydus x's only

When you first start runescape you have to do a small and easy tutorial to show you how the game works to start off with you appear with a interface where you can change how your character looks (don't worry you can change it later at the makeover mage, the hair dresser and the clothes shop in varrock, for a small price.)

The Interface

Fill out the setup on how you want your character to look.

Pretty straight forward you can have beards, change hair style, your torso (shirt) pants, gender or you could get a random character.

After that it's pretty straight forward click on where the arrow is e.g. (The first one)

After that talk to Sir Vant (the white knight, right.) After talking to him he says. After a while of talking he says Wait a moment there's a dragon coming

After that he has an epic battle with the dragon and slices at its chest the dragon will step back for now.

Talk to Sir Vant again and he'll say to take his squire's equipment and kill the goblin.

After equipping the squire's armor and weaponry you should look similar to this.

Click on the goblin once you should start swiping at him with the sword be patient you should start to kill him.

After killing him report to sir. Vant he'll tell you to search his bag for some drugged meat then grab the plank on the bench and use it on the wall and climb over it.

Walk down the corridor and go into the first room on the left, you should see a bowl.

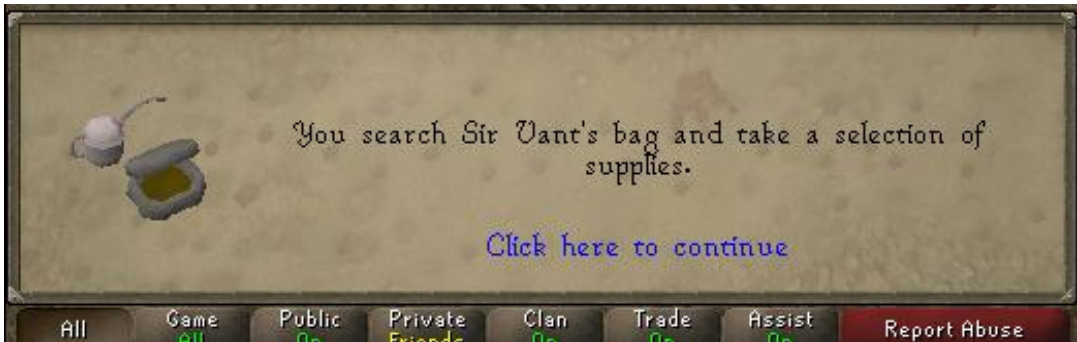

Use the drugged meat on the bowl, sir Vant yell's out to go into hiding, you will do this automatically and a cut scene takes place.

The dragon will eat the meat and you can come out of hiding talk to sir Vant.

He'll tell you to grab supplies from his bag.

Not a happy chappy
(Caption of the day ☺.)

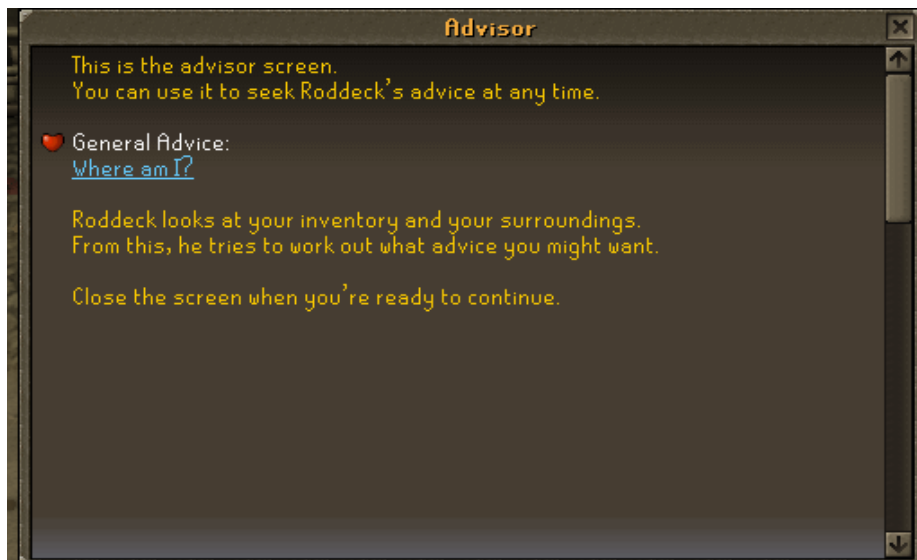

Talk to Sir Vant again he tells you to rip the cloth in half you can do this by clicking on it the use the oil can on the ripped cloth's then use the oily cloth on the two wooden pillars.

Then use our tinderbox on sir Vant.

Then use your tinder box on the furthest away wooden pillar there will be another cut-scene and the roof will fall on the dragon killing it.

A man called Roddeck will step out of a cupboard and come over to the demolition site (so I call it.) next you have to talk to him he says he is very grateful and in return he gives you the advisor bar (below.)

Now talk to Sir. Vant UN-equip the squires armor use the armor on him he'll take it back. Then he says you have to mine or chop through to the exit. Return to Roddeck he will give you the option of mining or woodcutting (WC for short) either way he'll give you a bronze tool, hatchet or pickaxe. When you try to clear the path you'll get this message.

Same for woodcutting.

Click on the advisor bar and ask how to level the skill you chose then talk to Roddeck if you chose mining you can click on the rubble on the floor if you chose woodcutting chop the roots further down the corridor.

Once you reach level 2 chop or mine through one of the exits then drop the material's you got from mining or woodcutting. Then climb the ladder to freedom

Then talk to Roddeck and complete your quest.

(if you are not over 13 lie about your age if you want to talk publicly.)
